## Summary

I am a Web Developer with expertise in developing robust and scalable web applications. I am proficient in React, NodeJS, PHP, MySQL, and MVC frameworks, with a deep understanding of web development principles and best practices and the constant drive to learn new things in order to improve my skills. As a team player, I am dedicated to delivering high-quality work and meeting project deadlines.

## Experience

**Empowered blockchain firm**                 2021-03-02 - 2022-12-08
backend web developer

* Managed and maintained databases using database management systems such as MySQL PostgreSQL and mongoDB

**Digi Essentials**                                    2022-02-12 -
Full Stack web developer
🔗 https://digi-essentials.com

* Developed and maintained web applications using Laravel, PHP, and MySQL. * Integrated third-party APIs and services into web applications. * Worked closely with the frontend development team to ensure seamless integration and functionality. * Managed and optimized databases to ensure efficient query execution and data retrieval. * Conducted code reviews and implemented best practices for code quality and maintainability.

**Praxeum AI**                                   May 30, 2023 - Present
Frontend Web Developer
🔗 https://praxeum.ng/

At Praxeum AI, I played a key role in developing responsive, scalable, and performance-optimized client-side applications. My focus was on meeting the organization's business needs through effective application design and implementation.

## Education
